

# LEARNING SUPPORT CENTRE - LSC

Our Learning Support Centre is used as a nurture environment, providing emotional and personal development support for all students. Our Learning Support Centre is designed to support the work carried out in your classrooms. It offers another layer of care and support, for some of you, at times that may need a quiet space.

In our Learning Support Centre, literacy and numeracy programmes take place in small group settings. The Learning Support Centre has its own teacher and is a safe space for all of you who may require additional emotional or educational support.
